Project Name	FitBuddy - AI Fitness Plan Generator Using Gemini Models
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template)

FitBuddy focuses on users who want a simple way to get a weekly workout plan that reflects their basic profile, goal and preferred intensity.

ID	I am (Customer)	I am trying to	But	Because	Which makes me feel
PS-1	A beginner fitness user	Create a weekly workout schedule	Does not know which exercises to combine	General plans are not tailored to the user profile	Feels unsure and may struggle to stay consistent.
PS-2	A user trying to gain muscle or lose weight	Follow a plan matched to a specific goal	The same routine is often reused for different goals	Goal, weight and intensity change the required plan structure	Feels the plan may not fit their needs.
PS-3	A user who tries a generated plan	Adjust the plan after giving feedback	Static plans require manual rewriting	The user needs changes without rebuilding everything manually	Feels frustrated when changes are slow or unclear.
