Empathy Map

Persona: **A beginner or early-stage fitness user seeking a personalized weekly routine.**

SAYS	THINKS	DOES	FEELS
"I need a plan I can actually follow." "Which exercises fit my goal?" "Can I change the plan if something does not work for me?"	Wants a clear seven-day routine. Wonders whether the plan is matched to goal and intensity. Values simple guidance and quick updates.	Enters basic profile details. Reviews the AI-generated plan. Uses the plan, then submits feedback for changes.	Uncertain before receiving guidance. More confident after seeing a structured routine. Relieved when feedback can be used to revise the plan.
