

Data Flow Diagram

Date	29 September 2026
Team ID	6ab3e6756603573ccfb3b891
Project Name	FitBuddy - AI Fitness Plan Generator Using Gemini Models
Maximum Marks	2 Marks

Data Flow Diagram

The DFD maps the flow of user profile information, AI generation, storage and feedback within the implemented application.

Output returns to the user; feedback re-enters plan-update processing.

Key Data Flows

Flow	Data Passed	Destination
1	Name, User ID, age, weight, goal, intensity	FastAPI + Pydantic validation
2	Validated user profile	Gemini workout generator
3	Validated user profile	Gemini Flash nutrition tip generator
4	User + original plan + tip	SQLite through SQLAlchemy
5	Feedback + original plan	Gemini workout plan update
6	Updated plan + feedback	SQLite and result page
