Communication Plan

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	WhatsApp / voice / chat	All members	Coordinate implementation tasks and blockers.
2	Progress Update	Weekly	Team chat	All members	Review milestone progress and adjust task ownership.
3	Issue / Bug Discussion	As needed	Chat + screen sharing	Relevant members	Reproduce, isolate and resolve code issues.
4	Stakeholder Review	Bi-Weekly / milestone	Document + demo walkthrough	Team + reviewer	Review requirements and alignment with template.
5	Final Demo Rehearsal	Once	Video call / local run	All members	Practice feature order, hand-offs and timing.

Communication Challenges & Resolutions

S.No	Challenge Faced	Resolution / Action Taken
1	Coordinating AI, database and frontend changes	Used modular files and shared demo checkpoints.
2	External API dependency for live AI output	Kept a demo mode path and used .env for configuration.
3	Keeping documentation aligned with code	Mapped each template phase to the implemented FitBuddy files and features.
