

Demonstration of Proposed Features

Date	29 September 2026
Team ID	6ab3e6756603573ccfb3b891
Project Name	FitBuddy - AI Fitness Plan Generator Using Gemini Models
Maximum Marks	1 Mark

Demonstration of Proposed Features

This document tracks the features mapped from the planned solution to the implemented project and the uploaded walkthrough evidence.

S.No	Feature Name	Description	Status	Demonstrated	Remarks
1	User profile input	Collect required fitness profile fields.	Implemented	Yes	Demo video attached; form route documented.
2	AI workout generation	Generate seven-day workout plan.	Implemented	Yes	Core AI feature; implementation documented.
3	Nutrition / recovery tip	Generate short supportive tip.	Implemented	Yes	Gemini Flash module documented.
4	Feedback-based revision	Update plan using user feedback.	Implemented	Yes	Feedback route and updater documented.
5	SQLite persistence	Store user and plan data.	Implemented	Yes	User and Plan tables documented.
6	Admin users view	View and delete stored users.	Implemented	Yes	Current admin-style page; no authentication.
7	API docs	Expose interactive docs.	Implemented	Yes	FastAPI /docs endpoint documented.
8	Error handling	Show friendly error page on failures.	Implemented	Yes	error.html and exception handling documented.
9	Health endpoint	Return service status.	Implemented	Yes	/health endpoint included and smoke-tested.

Feature Implementation Summary

Metric	Count / Value
Total Features Proposed	9
Total Features Implemented	9
Features Covered by Attached Walkthrough	9 implementation areas documented; video is included as supporting evidence
Overall Implementation Rate	100% of the listed feature set is implemented in the supplied source package

Demo Evidence

Uploaded video: **FitBuddy_Demo_Video.mp4** (approximately 4 minutes 33 seconds). Representative development/demo frames are included in the same folder.
